Course Description

Elections are critical junctures in political history. They are opportunities for voters to express (dis)satisfaction with government, and even authoritarian regimes may use elections as safety valves to release pent-up social discontent. In all contexts, elections can function as a rallying point for the opposition and test the government’s mettle. Ultimately, electoral outcomes determine what societal interests gain voice in the corridors of political power and whether the current direction of politics continues. Yet how elections operate differs significantly, even among democracies, and such differences grant those in power a variety of rules to manipulate. Thus, existing rules that govern elections may not only make the difference between winning and losing, but parties in power also may be tempted to alter the rules to improve their electoral chances.

Course Objectives

This course introduces students to the different ways popular votes are converted into political representation and explores how political parties across the globe navigate their electoral waters. By the end of the course, students will better understand 1) how electoral rules shape the behavior of voters, politicians, and parties; 2) scholarly recommendations about which electoral options may best advance the cause of democracy; 3) why and how elites manipulate electoral rules; and 4) how different contexts lead to different electoral outcomes.
Student Responsibilities

Required Reading
Much of the reading for the course will come from electronic reading that I will make available on a course project site accessible via Canvas. To log in, go to https://lss.at.ufl.edu/. In addition, we will read most of the following book, which students should purchase as indicated on the textbook adoption site for this course:

Assignments and Grade Distribution

Final grades for the course will be based on the following:
1. Attendance and in-class participation (10%)
2. Participation during in-class debates (5%) [Three are scheduled. Others may be added.]
3. Paper assignment #1 (10%)
4. Paper assignment #2 (15%)
5. Two exams (30% each)

Course Policies

Attendance & Participation

Students are encouraged to review the University’s attendance policies at http://www.registrar.ufl.edu/catalog/policies/regulationattendance.html.

Since class discussions and lectures often add new concepts, ideas, and interpretations to the material covered in the reading that students will be responsible for knowing, it is in your best interest to attend every class and to arrive on time.
Higher attendance rates and more frequent and higher quality participation will yield better attendance and participation grades:

- A full 10% reflects perfect attendance as well as frequent participation reflecting knowledge of the assigned readings;
- 7-9%, student attends 70-90% of class sessions with occasional (rather than frequent) participation about the topic being discussed (not necessarily based on the assigned readings, e.g., personal experience or reflection)
- 1-6%, student attends 60% or less of class sessions with the frequency of participation not considered in the score
- 0%, habitual tardiness or disruptive behavior.

Cell Phones
Students must turn cell phones to silent before coming to class. Each time a student’s cell phone rings or each time that a student texts during class, 1% will be deducted from that student’s final grade (1% per instance).

Make-up Exams
Make-up exams will be arranged only for university-accepted excuses. In the event of an absence, students should provide proper documentation. In all cases, students should try to notify me prior to the exam. If a student misses an exam and cannot contact me beforehand, students should contact me within 48 hours of the absence to receive full consideration. In almost any situation, you should be able to pass along a message via email or voicemail even if it is from a roommate or family member. Make-up exams will be given during finals week at the time designated by the Registrar’s Office for the course’s final exam. To preserve the integrity of the exam, the format of any make-up will differ from that of the original exam.

Cheating & Plagiarism
All students should observe the University of Florida’s standards of academic honesty. In the event that a student is found cheating or plagiarizing, s/he will automatically fail the course and will be reported to Student Judicial Affairs.

Acts of plagiarism include:
- Turning in a paper or another assignment that was written by someone else (i.e., papers written by another student, a research service, or downloaded off the Internet).
- Copying, verbatim, a paragraph or significant portion of text (of eight words or more) from the work of another author without properly acknowledging the source through a commonly accepted citation style and using quotation marks.
- Paraphrasing (i.e., restating in your own words) text written by another author without citing that author.
- Using a unique idea or concept, which you discovered in a specific reading, without citing that author.
Persons with Disabilities
Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation. Anyone with a disability should feel free to see me during office hours to make the necessary arrangements.

Course Evaluations
Students are expected to provide feedback on the quality of instruction in this course based on 10 criteria. These evaluations are conducted online at https://evaluations.ufl.edu. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results.

Additional Information
