Introduction to International Security (INR 3333.)

Meeting days & times: M, W, F at 10:40-11:30

Meeting location: Weimer Hall, Room-1094 (WEIM 1094)

Instructor: **James Biondi**

Email: jbiondi@ufl.edu

Office Hours & Location: Anderson Hall 010: Tuesdays @ 10:30-12:30 & Fridays @ 15:00-17:00

Course description:

Security is a contested, multifaceted, and evolving concept, which is what makes the study of security both problematic yet fascinating. The discipline of security studies has made its way into the academic and policy worlds alike, in addition to stretching far beyond the boundaries of International Relations. This course will provide you with an introduction to the various methodological, theoretical, and empirical branches of security studies. A primary aspect of this course will be to identify and critically analyze the commonalities, divergences, and nuances between the conceptualizations of security studies so you can question existing narratives and understandings of *what* security is, *how* it is conceptualized, *where* security goes, *who* is afforded security, and *how* security is practiced. Additionally, to gain a more comprehensive perspective, the course will go beyond big academic names, older works, and Western/European viewpoints on security studies by delving into recent scholarship, lesser-known scholars, and non-Western/non-European positions of security studies.

Student Learning Objectives:

- I. Acquire a comprehensive understanding of core topics/themes pertaining to the field of security studies.
- II. Apply theoretical & academic concepts of security to real world empirical examples.
- III. Recognize the interrelation and interconnection between the themes/topics of security as outlined below in the syllabus.
- IV. Understand how security studies go far beyond international relations and political science – with these issues being relevant to many realms of life and fields of study.
- V. Verbally engage with themes of international security in class alongside demonstrating more detailed understanding through the writing assignments.

Weekly Readings:

- Please ensure you do all the required readings *prior to the first class of the week*.
- The readings are designed to give you a core basis of a particular theme by exposing you to key works regarding a concept or topic of international security. Do not just rely on

attending class as a sufficient way to navigate through the course – the readings are also imperative!

- In lieu of smaller assignments I have opted for a significant reading load each week. Despite there being no assignments/quizzes on the readings *per se*, I guarantee you it behooves you to do all of the required readings, not only to enhance your own grasp of a concept or topic but to also to perform very well in the exam essays.
- I recommend you take notes while you read and use them to supplement your class notes, and my slides for the purposes of studying.

Attendance:

- Attendance will be taken before the beginning of every class. Only precleared and justified absences will be accepted as a valid reason for missing class. Any medical or UF-affiliated absences should be accompanied by the requisite documentation. Please arrive a few minutes before class begins so you can sign yourself in, in a timely fashion. Despite attendance not counting toward your grade *per se*, your participation grade will be penalized for unjustified/unexcused absences (see below.)

Applicable Holidays & Key Dates

- MLK Jr. Day – Monday, January 20th, 2025.
- Spring Break – Saturday, Saturday, March 15th, 2025 – Sunday, March 23rd, 2025.
- Classes begin – Monday, January 13th, 2025.
- Classes end – Thursday, April 24th, 2025.
- Attendance begins on Monday, January 20th (after add/drop ends) and ends on Thursday, April 24th.

Assessment % breakdown

- I. Participation (ongoing) – 8% – **after add/drop – the last day of class.**
- II. First in-class exam (50 mins) – 10% – **Friday, February 14th, 2025, 10:40 – 11:30.**
- III. Second in-class exam (50 mins) – 20% – **Monday, March 10th, 2025, 10:40 – 11:30.**
- IV. Third in-class exam (50 mins) – 26% – **Friday, April 4th, 2025, 10:40 – 11:30.**
- V. Fourth & final in-class exam (80 mins) – 30% – **Thursday, May 1st, 2025, 12:30-13:40, in our regular classroom.**
- VI. Face-to-face topic discussion (ongoing) – 6% – **ongoing.**

Assessments: (in-class exams will be taken in a full-sized Blue or Green Book & NOT the smaller one. The full-sized ones are 11" x 8.5")

I. Participation – (8%)

- The overall class structure is based on a combination of lecture and discussion. Therefore, throughout each weekly theme, I will pose plenty of questions, applications, and talking points for students to participate in. As such, students are encouraged to vocally engage with the material in a meaningful and thoughtful way. Do not burden yourselves with coming up with a “perfect” or “groundbreaking” contribution, as this is not necessary.

However, please come prepared for each class by doing the assigned readings ahead of time. Participation will be assessed on an overall basis throughout the term rather than every time you speak. **I will be calling on randomly selected people so please be ready by completing the readings and by paying attention in class (I strongly suggest you do corresponding notes to bring to class.)** When I call on someone, I am there to facilitate and encourage – and I could ask something that I have introduced in class, or something based on a specific reference to an assigned reading. See below for the participation grading criteria. Finally, consistent, and regular attendance are **critical** for your understanding...also if you do not attend – you cannot participate! Consistency is key!

- Participation can really come back to haunt or boost your grade at the end of term, which is why it is imperative to participate very regularly throughout the course of the semester.
- Attendance alone is not counted toward your grade; yet, it *does* affect your participation score on the simple logic that if you are not present you cannot speak! Therefore, at the end of the semester I will tally up everyone's total attendance as part of the participation assessment.
- I consider your physical presence simply making you **eligible** to participate. Showing up does not count as participation *per se*, although it entitles you to do so. In other words, participation is a two-part step. Step I = showing up. Step II is verbally participating during class.
- Please note that you are not required to speak *every* class session for an A, although you are most certainly welcome to as there will be many opportunities on each occasion. I base participation on an *overall* assessment of your participation throughout the term. Of course, to achieve an A, you must ***regularly/frequently and consistently verbally participate throughout the semester***. I will notice if you are silent for the first half then talk for the second half or *vice versa*. Doing so is inconsistent, irregular, and, overall infrequent, which will consequently not earn anything near an A.
- Importantly, if you have too many **unexcused/unjustified/unsupported** absences it will **not** be possible to score highly in *either* non-verbal or verbal participation. The attendance-participation penalty breakdown is as follows:
 - > **One unexcused absence = A (100%) still achievable**
 - > **Two or more unexcused absences = B+ (87%) maximum.**
 - > **Three or more = D (62%) maximum.**
 - > **Four or more = E (49%) maximum.**
 - > **Five or more = E (30%) maximum.**
 - > **Six or more = E (10%) maximum.**
 - > **Seven or more = E (0%) maximum.**

II. All in-class exams (10%, 20%, 26% & 30%, respectively)

- First, all exams will be closed book & written in formal essay form, which means no contractions (don't, won't etc.) Moreover, any of the material we have covered is liable to be on the exam, although each exam will focus on a specific set of themes more than

others. There will be NO make-up exams for any reason unless it is supported by legitimate documentation to support a justified absence/emergency. Failure to take the exam during the allotted time & date will therefore result in an automatic zero for that exam.

- Second, although you are not expected to cite like you are in essays, I encourage you to study in a manner that couples names with key arguments so you can utilize them in the exam. For example, you might want to say: “Mearsheimer argued that...,” or “according to Peterson...”
- Third, while a part of the exam is to test your knowledge and understanding of the material, you will need to limit the descriptive nature of your answer. Every response must contain an *argument/position, theoretical analysis, and empirical examples*.
- Fourth, the aim is not to impress by showing how much of an article you can memorize, but rather, how you *critically and analytically engage* with the question in a cogent and coherent manner. I will provide you with **two** essay questions, in which you will answer **one**. Please note that all themes are interconnected in some way, shape or form. So, for example, if the essay Q is on human security you might have to branch out and incorporate other themes into your answer.
- Fifth, the essay question will have multiple components, which are designed to help breakdown the question into manageable and exploratory avenues for you to tackle.
- Sixth, do not worry about making the essay “paper ready” insofar as you will only have a short amount of time to complete the essay. So, do not burden yourselves painstakingly worrying about commas or bringing Wite-Out as you simply do not have the time. Still, ensure you write formally and avoid using writing such as: “I believe that,” “in class we said this,” “I think it will be,” and so on. Instead use terms such as “it can be argued that,” “I argue,” “the evidence suggests,” “on balance, X theory is better suited than Y because...” etc.
- Seventh, many (if not all) of the themes are interconnected and interrelated in some way, shape, and form. Therefore, although each question will have a specific thematic focus, theme syncretization is encouraged.
- Eighth, while I recommend you plan your essay before you begin writing – do not spend too much time doing so.
- Ninth, we will talk more about the exam and essay writing nearer the exam. The exam may only be taken in a **full-sized Blue or Green Book & not the smaller ones. The full-sized ones are 11" x 8.5"**. Moreover, the exam must be taken with *pen (black or blue ink)* – **no pencil**. All electronics and bags must be set to the side of the classroom before the exam commences. The exam **may NOT** be taken on anything else apart from a designated Blue or Green Book with either a blue or black ink pen. Failure to comply with these instructions may result in disqualification from the exam and thus an automatic zero.
- Tenth, I strongly recommend that any DRC students get in touch with the DRC 1-2 weeks prior to the exam, as the whole process can take a few days to administratively organize.

- Eleventh, the last exam is **cumulative**. However, the emphasis will still be on the most recent themes.

III. Face-to-face topic presentation (6%)

- Pick an empirical example or topic from international security **between 2022-2025** that **HAVE NOT been covered in class/on my slides for a particular theme**. For example, we will cover traditional security and the Syrian War; however, we will not be covering it under securitization *per se*. Therefore, you can do your presentation on the Syrian War and securitization if you wish to do so. Similarly, we will be looking at the French Burqa ban through the lens of human security. However, should you wish to approach this through ontological security, you are welcome to do so. If you are unsure whether we have covered a topic in class vis-à-vis a particular theory, please check with me beforehand.
- Once you have selected your topic/example think about how it relates to **ONE** theory of international security (TS, HS, S, OS, R2P & Terrorism). How does the theory and the example link up? What can we learn about the example from the theory? How do they relate to one another? How does the theory critique the example? How does it align with the example? How does the theory enhance our understanding of the example? You need not cover all of these Qs, however, these are the sort of Qs you need to be asking yourself.
- Once you have thought about the theory and example, come to my office hours and have a brief discussion with me about it through giving me a mini presentation. For the informal presentation, create **4-5 PowerPoint slides** and **upload them to Canvas immediately before** our meeting so I can follow along during the presentation. I have created an assignment on Canvas for the upload (PowerPoint [.pptx] format only). The talk should last approximately **five minutes**. If you are unable to make any of my allotted office hours, please email me so we can arrange an alternative date/time.
- This assignment is pass/fail. If you do it with a clear degree of effort, thought, and compliance with the instructions, you will receive a 100 and thus the whole (6%). Contrastingly, a lack of effort, thought, and compliance with the instructions will result in an automatic zero (0%). There is no partial credit for this assignment. Also, there are no do-overs with this assignment.
- You are free to fulfill this assignment during **any of my office hours between January 27th – April 21st** unless stated otherwise. You cannot attempt this assignment before January 27th or after April 21st. I do not need advanced warning, and you do not need to make an appointment. Any person that has not presented after April 21st will receive an automatic zero.
- Finally, do not make your slides dull and boring! Add some color, font other than the default one, pictures, and nice design touches.

Grading Policy for exams & participation:

I. Exams

All exams will be out of 100 points. I do not believe in rigidly following a rubric or painstakingly deducting points for every “mistake” *per se*, so please do not view your grade as “why did I lose X number of points,” as my approach is not so mechanical. Instead, I assess your work based on its overall quality and assign a corresponding grade. I will be looking for: **argument, writing coherency, diligent writing, strong levels of analysis, engagement and understanding of the material, the reasoning/evidence used, and how well the question links together between all its parts.** To further break it down for **exams**, think of the grading being broken down into three overall elements:

- I. The extent to which the response demonstrates an understanding of key concepts and thoughtfully and thoroughly answers the questions grounded in a solid argument.
- II. The depth of the analysis, including reference to specific citations and examples and attention to the connections between course materials.
- III. The overall quality of the work, including evidence of effort, logic and reasoning, and conformity to the formatting guidelines.

In more detail, the exam will be further broken down based on the following criteria:

- I. Argument.
- II. Critique & analysis.
- III. Content.
- IV. Fluency & consistency.
- V. Grammar, syntax & style.
- VI. Adherence to the assignment instructions.

II. Participation

Participation will be assessed along the following guidelines:

- I. (A) – very regular, relevant, frequent, consistent, and thoughtful engagement. Such a contribution goes beyond asking the instructor questions, repeating information already said by one’s peers, and simply saying “author X said this...” or “according to reading Y...” as this is just reiterating substance from the readings/authors. Additionally, the student will oftentimes contribute something new/creative or analytical to the dialogue – either theoretically or empirically. Lastly, although contributions can be inventive, they remain relevant to the topic at hand.
- II. (A-) noticeable frequency, relevancy, and consistency in class participation. A relatively commendable amount of participation beyond asking the instructor questions and repeating information that has already been said by a classmate or a reading/scholar. Despite being less frequent and analytical than what is required for an (A) grade, the student will nonetheless be observable in their analysis and insightful participation.
- III. (B+) the same criteria as the A- grade **but** participation is on a less frequent and consistent scale.

- IV. (B) the same criteria as the B+ grade **but** participation is on a less frequent and consistent scale.
- V. (C+) the same criteria as the B grade **but** participation is on a less frequent and consistent scale.
- VI. (C) the student earnestly tries to contribute to the conversation or dialogue but struggles to apply the point/theme/theory/example in a meaningful, analytical or germane way. Although the student tries, the instructor has to oftentimes step in to assist the student in terms of making sense of a comment, applying/situating the student's point or question raised to the ongoing dialogue, deduce relevancy, and relate the "author X said this" or "reading Y said that" remark by the student to something wider for it to fit the flow of the dialogue. In other words, the student earnestly tries but struggles.
- VII. (C-) the same criteria as the C grade **but** participation is on a less frequent and consistent scale.
- VIII. (D+) the student infrequently, irrelevantly, vaguely/confusingly (the comment struggles to make discernible sense), and inconsistently participates. In addition, the student does not tend to go beyond asking the instructor very basic questions, or repeat information already said by the instructor, author/reading, or a peer. The (D) bracket also applies to students who do put a lack of effort or thought into their input.
- IX. (D) the same criteria for the (D+) grade **but** on participation is on a less frequent and consistent scale.
- X. (D-) for *very* seldom, sloppy, digressing, repetitive, or confusing participation.
- XI. (E) for next to no participation and/or zero participation.

Grading scale

The grading scale is as follows: 100-92 (A); 91-90 (A-); 89-87 (B+); 86-82 (B); 81-80 (B-); 79-77 (C+); 76-72 (C); 72-70 (C-); 69-67 (D+); 66-62 (D); 61-50 (D-); 49-0 (E)

Reading Assignments & Course Themes (to be done prior to class on Monday):

Theme I/Introduction: the concept, discipline, & elusiveness of international security

Recommended Introductory Readings (to be done in the first week):

EXAM IV/FINAL EXAM – Thursday, May 1st, 2025, 12:30-14:30 in our regular classroom.

Information about the readings:

- There are no set or required textbooks for this class. Instead, articles and book chapters will be posted on Canvas – either in a PDF format or with the online link to access the material.

Important Notes:

- *The instructor reserves the right to change any part or aspect of this document/syllabus at any point in time during the semester.*
- My office hours are a time for you to come and seek clarification, air problems, discuss the material, or obtain guidance. Please do not feel you have to come to office hours with a long list of questions – although it is fine if you do so. All I ask is that you have some queries or comments already prepared so we can best maximize *our* time.
- Please ensure that all dialogue and comments in the classroom are conducted in a respectful and controlled manner. Having a differing viewpoint from another is perfectly expected, as this is the nature of scholarly discourse. Although we will be dealing with particularly contentious issues, do remember that the classroom is a safe space – welcomed and open to all enrolled.

Other Important Notes:

- Only **justified absences with documentation** will be permitted as a reason to turn in work late or miss a class.
- Incomplete grades may be granted under very special circumstances as supported by valid official documentation (in accordance with the university regulations). Any student seeking such accommodation must request it prior to the deadline for the specific assignment.
- Retroactive extensions/incompletes will only be considered under extreme circumstances.
- Online course evaluation process: Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available from the Gatorevals website. Students will be notified when the evaluation period opens and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via the evaluation system. Summaries of course evaluation results are available to students at the public results website.
- Per university rules there is a zero-percent tolerance on cheating, plagiarism, bribery, misrepresentation, conspiracy, fabrication (see university definitions down below).

- The Writing Studio (352-846-1138) can assist UF students with academic writing through one-on-one consultations either in person or online. Consultations can be scheduled through their website. English language learners can request general writing help or can get help with specific assignments are available for students who cannot visit the Writing Studio in person.

UF Policies:

- University Policy on Accommodating Students with Disabilities: Students with disabilities requesting accommodation should first register with the UF Disability Resource Center (352.392.8565) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.
- Workload: as a Carnegie I, research-intensive university, UF is required by federal law to assign at least 2 hours of work outside of class for every contact hour. Work done in these hours may include reading/viewing assigned material and doing explicitly assigned individual or group work, as well as reviewing notes from class, synthesizing information in advance of exams or papers, and other self-determined study tasks.
- Statement regarding course recording: as in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.
- UF policy on the student computer requirement: Access to and on-going use of a computer is required for all students. The University of Florida expects each student entering a UF Online program, to acquire computer hardware and software appropriate to his or her degree program. Competency in the basic use of a computer is required.
- Course work will require use of a computer and a broadband connection to the internet, academic advising and registration can be done by computer, official university correspondence is often sent via e-mail and other services are provided that require access through the Internet. While the university offers limited access to computer software through its virtual computer lab and software licensing office, most students will be expected to purchase or lease a computer. The cost of meeting this requirement may be included in financial aid considerations.
- University policy on academic misconduct: Academic honesty and integrity are fundamental values of the University community. Students should be sure that they understand the UF Student Honor Code at https://policy.ufl.edu/wp-content/uploads/2021/12/4-040_2021-12-06.pdf

UF statement on recording:

- Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited.

- Specifically, students may not publish recorded lectures without the written consent of the instructor. A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, and clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, & exams), field trips, and private conversations between students in the class or between a student and the faculty or lecturer during a class session.
- Publication without the permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third-party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

Technical Definitions:

- (I) Cheating: the improper taking or tendering of any information or material which shall be used to determine academic credit. Taking of information includes, but is not limited to, copying graded homework assignments from another student; working together with other individual(s) on a take-home test or homework when not specifically permitted by the teacher; looking or attempting to look at another student's paper during an examination; looking or attempting to look at text or notes during an examination when not permitted. Tendering of information includes, but is not limited to, giving your work to another student to be used or copied; giving someone answers to exam questions either when the exam is being given or after having taken an exam; giving or selling a term paper or other written materials to another student; sharing information on a graded assignment. Please note that the usage of *any* AI whatsoever, unless expressly permitted by the instructor, also constitutes cheating, and plagiarism.
- (II) Plagiarism: the attempt to and/or act of representing the work of another as the product of one's own thought, whether the other's work is published or unpublished, or simply the work of a fellow student. Plagiarism includes, but is not limited to, quoting oral or written materials without citation on an exam, term paper, homework, or other written materials or oral presentations for an academic requirement; submitting a paper which was purchased from a term paper service as your own work; submitting anyone else's paper as your own work.

- (III) Bribery: The offering, giving, receiving or soliciting of any materials, items or services of value to gain academic advantage for yourself or another.
- (IV) Misrepresentation: any act or omission of information to deceive a teacher for academic advantage. Misrepresentation includes using computer programs generated by another and handing it in as your own work unless expressly allowed by the teacher; lying to a teacher to increase your grade; lying or misrepresenting facts when confronted with an allegation of academic dishonesty.
- (V) Conspiracy: the planning or acting with one or more persons to commit any form of academic dishonesty to gain academic advantage for yourself or another.
- (VI) Fabrication: the use of invented or fabricated information, or the falsification of research or other findings with the intent to deceive for academic or professional advantage.
